Sensor Status Alarm		

The IQ Panel will provide the current status of the sensors in the 'ACTIVE' and 'ALL' windows on the Security Page of the panel. These statuses may require additional attention.

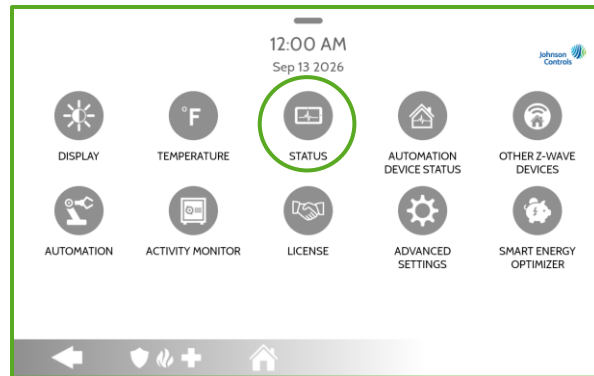

Always review the Status menu for more details.

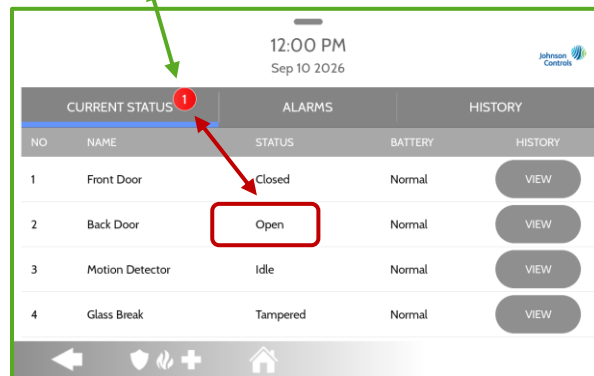

➤ **Tech Tip:** Tap the Time & Date and check the Sensor Status in **Settings > Status**.

IQ Panel Status Icon

Settings > Status:

Number of sensors (doors) currently open:

The sensor's activity history can be reviewed in the STATUS menu by pressing [VIEW](#) .
